

Code a program that creates a list of pitches to be outputted on the Console

Click on the settings icon and drag 2 'items' right.

```
program start
set pitches to [ ] create list with
```

```
program start
  set pitches to create list with
    10
    20
    30
    40
```

From 'Math'

These will be the items in your list!

Add a space after the colon!

```
program start
set pitches to create list with 10 20 30 40
print create text with "The pitches stored are:" pitches
```

From 'General'

From 'Text'

From 'Variables'

```
program start
  set pitches to create list with 10 20 30 40
  print create text with "The pitches stored are: pitches"
```

Test your program!
